Inspection Comments

This report is in response to a complaint stating unsanitary conditions. Not allowing the public in certain rooms of the shelter. Asking people to donate dog and cat food. No water and food in cages. I found all pets had food and water and enclosures were clean. Dog kennels were clean and cat litter boxes are clean as well as enclosures. I arrived early this morning while they were still cleaning however all enclosures were clean even at this time and there are no signs of enclosures not being cleaned daily. All water containers had fresh clean water in them. Only areas that contain cleaning supplies and quarantine areas are not allowed access by the public. I did observe one area near the back indoor kennels that had white pellets on the floor. When i asked what this was i was shown that it is insulation that is coming from the hall door when jarred closed and the fan blows it down the aisle. None of this was observed in the kennels housing dogs however we discussed the need for this door to be repaired so this does not happen. I spoke with Shelter Director Jerry Watkins today who was at the facility. No violations observed and hall door will be repaired. Case Closed. Records will be checked during routine inspection.
